Qatar Market

AYANA Trading & Contracting is Qatar's trusted partner for premium sports surfaces and complete facility fit-out. We engineer, supply, and install high-performance systems for schools, clubs, residences, and landmark venues — delivering certified quality from the sub-base to the final game-line.

Engineering-Led

Every surface is specified to international standards — DIN, EN, FIFA, IAAF — and detailed layer by layer before a single tool hits the site.

Single-Source Delivery

Consultation, supply, installation, and maintenance under one roof. No handoffs, no finger-pointing — one accountable partner.

Qatar-Based, Globally Sourced

Direct relationships with certified European and US manufacturers — delivered and installed by our Doha-based crews.

Vision & Mission

Vision

To be the leading provider of premium sports flooring and facility solutions in the Gulf — recognized for engineering precision, product quality, and uncompromising craftsmanship.

Mission

Deliver certified sports and facility systems that help athletes perform, venues endure, and clients trust a single accountable partner from design through decades of use.

Core Values

Quality

Uncompromising standards in materials, workmanship, and on-time delivery.

Innovation

Cutting-edge systems, better installation methods, smarter facility technology.

Partnership

Lasting client relationships built on trust, transparency, and accountability.

Sustainability

Eco-conscious sourcing, recycled content, and responsibly manufactured materials.

WHAT WE OFFER

Comprehensive Services

Consultation & Design

Expert guidance on system selection, specifications, and custom design solutions tailored to each venue.

Supply & Procurement

Direct sourcing from certified European and US manufacturers — authentic materials, documented chain of custody.

Installation

Certified in-house crews executing precision installations to manufacturer and international specification.

Turnkey Solutions

End-to-end project management — design, supply, install, commission, handover, and warranty.

Maintenance

Cleaning, refinishing, resurfacing, and repair programs to maximize surface life and performance.

Safety Compliance

DIN, EN, FIFA, IAAF certified materials and installation practices — verified before specification.

Safety Wall Panels

Impact-absorbing wall padding for gyms, courts, playrooms, and multi-sport facilities.

General Fit-out

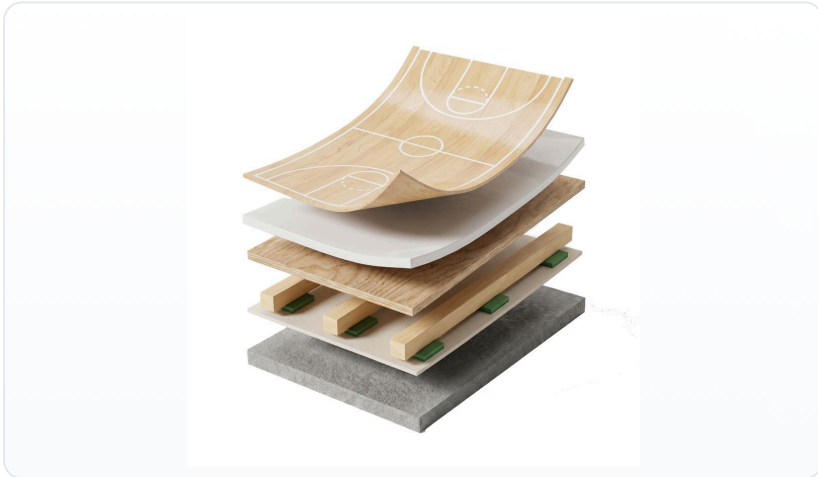

Complete interior construction for sports complexes and auxiliary spaces — ceilings, lighting, finishes.

Sports Equipment

Professional court, fitness, and field equipment supply, installation, and service plans.

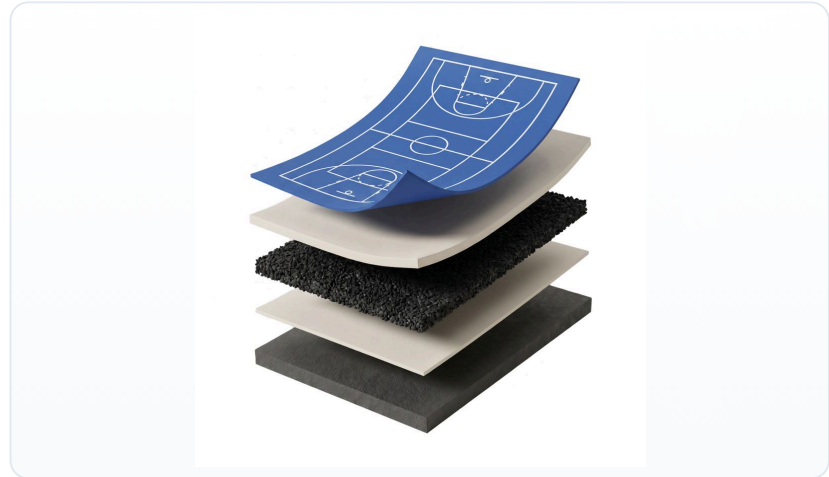

Maple Hardwood & Polyurethane

Maple Hardwood Sports Floors

DIN 18032-2 • FIBA CERTIFIED

- 1 Maple Finish Coat**
UV-cured polyurethane finish with game lines
- 2 Northern Maple Planks**
Kiln-dried 2nd/better grade, tongue & groove
- 3 Plywood Sub-floor**
18mm cross-laminated birch panels
- 4 Resilient Pad System**
Rubber shock pads for DIN force reduction
- 5 Moisture Barrier**
Polyethylene membrane over concrete slab

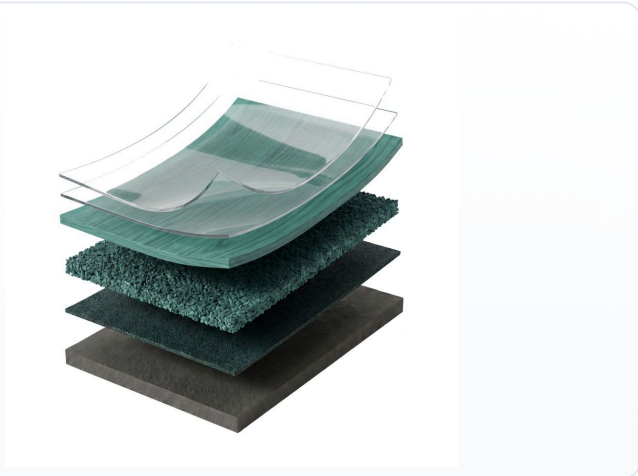

Polyurethane Sports Floors

EN 14904 CERTIFIED

- 1 PU Surface Coat**
Seamless polyurethane playing surface
- 2 Stucco / Pore Filler**
Leveling layer for surface uniformity
- 3 SBR Rubber Pad**
Recycled rubber shock absorption layer
- 4 Stucco / Pore Filler**
Base leveling and adhesion primer
- 5 Primer**
Concrete bonding primer coat

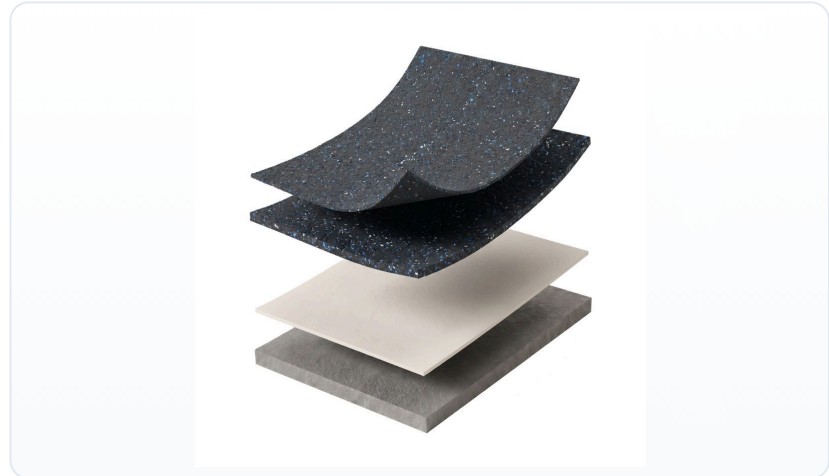

Vinyl & Rubber Flooring

Vinyl Sports Floors

EN 14904 • FIBA LEVEL 1

- 1 PUR Surface Treatment**
Factory-applied wear & stain protection
- 2 Printed Design Layer**
Court graphics and game-line printing
- 3 Fiberglass Reinforcement**
Dimensional stability & flatness
- 4 Closed-Cell Foam Backing**
Shock absorption 30–45%
- 5 Adhesive Bond Layer**
Full-spread polyurethane adhesive

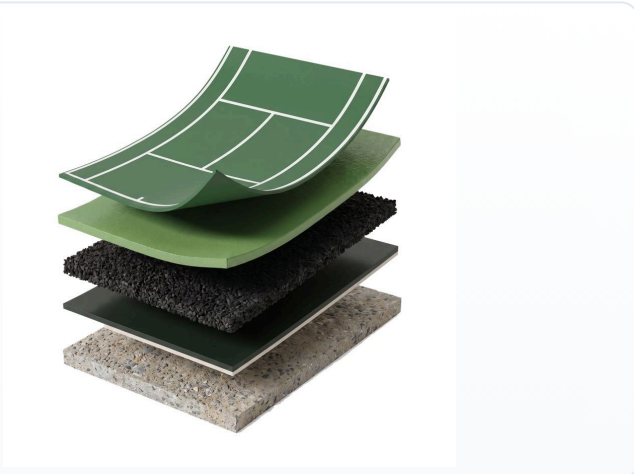

Rubber Sports Flooring

EN 14904 • ISO 9001

- 1 Vulcanized Rubber Top**
Dense wear surface, 4–8 mm
- 2 EPDM Color Granules**
UV-stable pigmented performance layer
- 3 SBR Rubber Base**
Recycled rubber shock pad
- 4 Polyurethane Binder**
Two-component bonding matrix
- 5 Adhesive Layer**
Substrate bonding primer

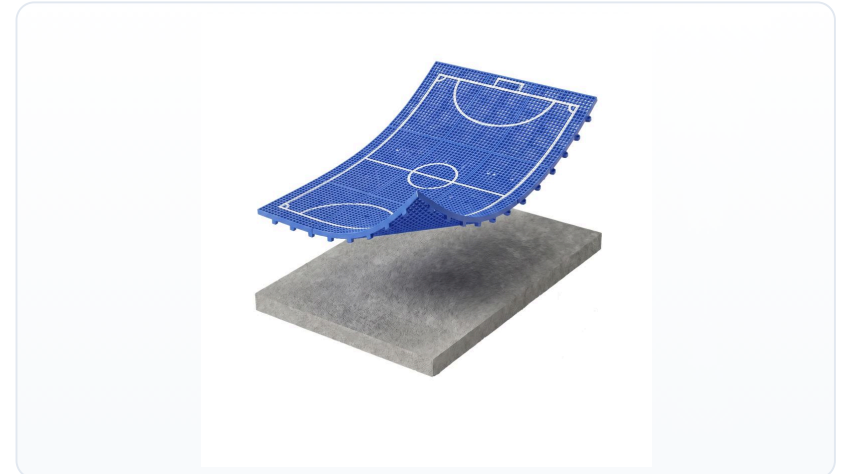

Acrylic & Modular Tiles

Acrylic Multi-Sport Courts

ITF CLASSIFIED

- 1 Color Coat & Lines**
Two coats of acrylic color with game lines
- 2 Texture / Cushion Coat**
Controlled-texture play surface
- 3 Acrylic Resurfacer**
Leveling coat for uniform finish
- 4 Acrylic Binder**
Primer bonding to asphalt/concrete
- 5 Asphalt / Concrete Base**
Engineered graded sub-base

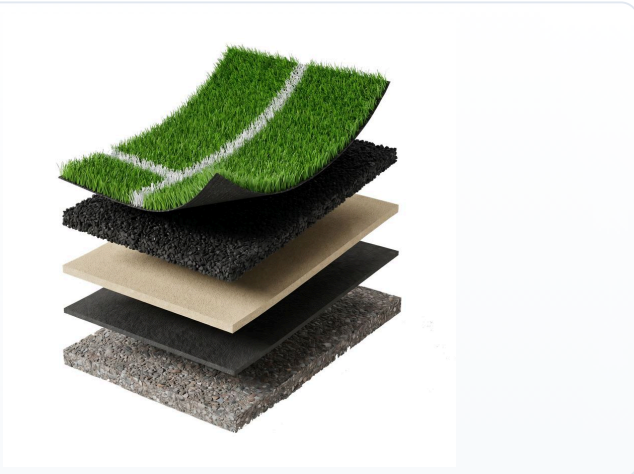

Modular Interlocking Tiles

ITF • FIBA 3X3

- 1 Polypropylene Tile**
High-impact UV-stable co-polymer
- 2 Lateral Flex Joints**
Interlocking loops for thermal movement
- 3 Grip Pattern Underside**
Non-slip contact with sub-base
- 4 Drainage Grid**
Open structure for full water shedding
- 5 Prepared Sub-base**
Level asphalt or concrete pad

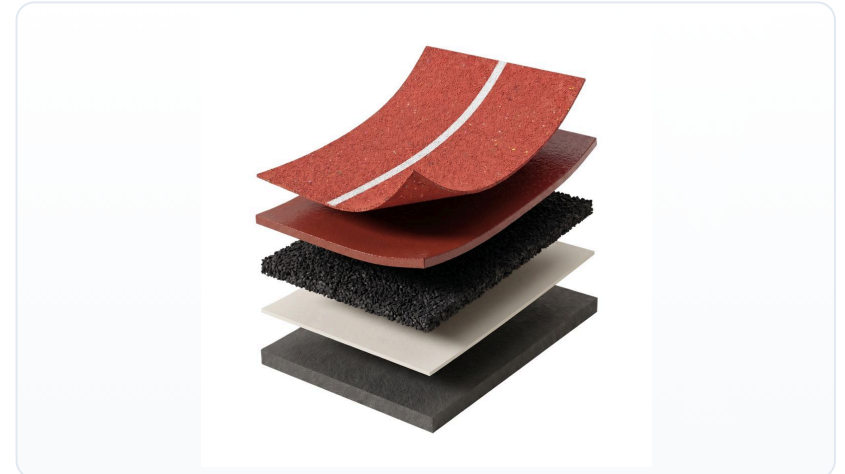

Artificial Turf & EPDM Tracks

Artificial Turf Systems

FIFA QUALITY PRO

- 1 Monofilament Fibers**
PE yarn, 40–60 mm pile height
- 2 Primary Backing**
Woven polypropylene carrier
- 3 Secondary Backing**
Polyurethane coat locking tufts
- 4 Performance Infill**
Silica sand + SBR / cork mix
- 5 Shock Pad Layer**
Pre-fabricated elastic foam pad

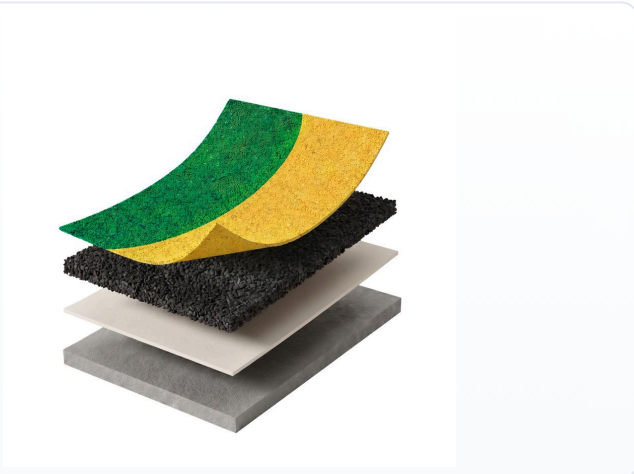

EPDM Athletic Tracks

IAAF CERTIFIED

- 1 EPDM Spray Coat**
Colored polyurethane & EPDM top spray
- 2 EPDM Granule Layer**
Broadcast granules for traction
- 3 SBR Rubber Base Mat**
In-situ cast base layer
- 4 Polyurethane Binder**
Two-component elastic binder
- 5 Asphalt Sub-base**
Engineered permeable asphalt

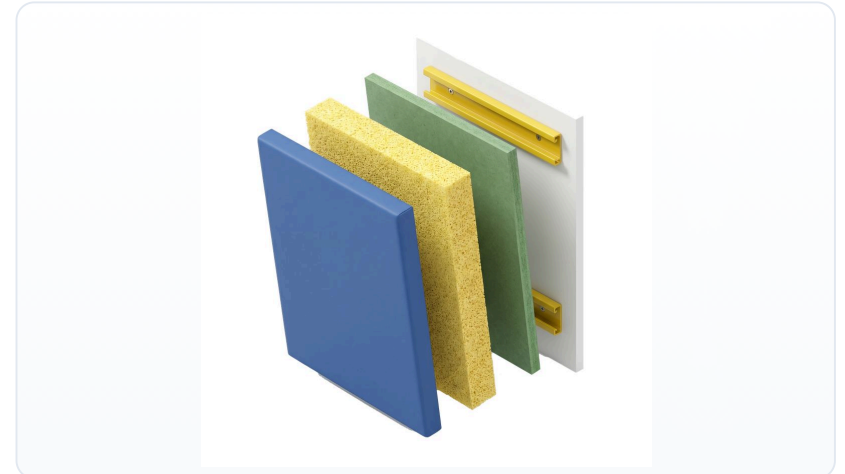

PlayFlex Surfacing & Safety Wall Panels

PlayFlex Playground Surfacing

EN 1177 IMPACT RATED

- 1 EPDM Wear Layer**
Pigmented granules, design patterns
- 2 SBR Cushion Base**
Impact absorption to 3.0 m HIC
- 3 Polyurethane Binder**
Wet-pour bonding matrix
- 4 Primer Layer**
Substrate adhesion promoter
- 5 Sub-base**
Compacted asphalt or concrete slab

Safety Wall Panels

EN 913 • ASTM F2440

- 1 Vinyl Outer Skin**
Heavy-duty fire-retardant fabric
- 2 PE Foam Core**
Closed-cell impact-absorption foam
- 3 Plywood Backer**
Rigid mounting substrate
- 4 Z-Clip Bracket**
Concealed wall-mount system
- 5 Wall Substrate**
Block/drywall mounting surface

Sports Equipment

Professional Equipment Supply

INSTALLATION & MAINTENANCE SUPPORT

Complete sports equipment from leading international manufacturers. We supply, install, and maintain professional-grade equipment for every type of sports facility — from school gyms to competition arenas.

Court Equipment

Basketball goals, volleyball posts, badminton, tennis & futsal goals, scoreboards

Fitness Equipment

Strength stations, cardio, free weights, functional training, recovery

Track & Field

Starting blocks, hurdles, pole vault, high jump, timing systems

Facility Fixtures

Retractable seating, benches, dividers, storage, netting, acoustic panels

Supply Model

- ✓ Direct manufacturer sourcing
- ✓ Certified installation crews
- ✓ Spare parts & warranty
- ✓ Annual maintenance plans
- ✓ Training & handover

500+

SKUs supplied across 100+ venues

General Fit-out

Interior Construction & Finishing

TURNKEY PROJECT DELIVERY

Comprehensive interior construction for sports complexes — from design to handover. Seamless coordination between every trade so the project lands on time, on budget, and on spec.

Ceiling Systems

Acoustic panels, suspended grids, LED integration, HVAC coordination

Lighting Solutions

Sports-specific, LED high-bay, emergency, smart controls

Auxiliary Facilities

Locker rooms, reception, seating, storage

Finishing Works

Wall cladding, flooring transitions, signage, branding

Installation Process

1

Site Assessment

Detailed survey, moisture testing, flatness tolerance, and sub-base evaluation before specification.

2

Design & Specification

System selection tailored to the sport, user profile, acoustic needs, and client budget.

3

Surface Preparation

Grinding, crack repair, moisture mitigation, and primer application to manufacturer spec.

4

System Installation

Layer-by-layer installation by certified crews to manufacturer and international standards.

5

Game-Line & Finishing

Precision game-line marking, logo application, and final surface finishing and cure.

6

Quality Handover

Testing, documentation, client training, and ongoing maintenance program enrollment.

Why Choose AYANA

Proven Track Record

100+ completed projects across Qatar — schools, clubs, residences, malls, and government venues.

100+
PROJECTS DELIVERED

Certified Systems

Every material meets DIN, EN, FIFA, IAAF, or ASTM standards — verified before specification.

7+
INTERNATIONAL STANDARDS

In-House Crews

50+ certified installers directly employed — no unvetted subcontractors on critical work.

50+
CERTIFIED INSTALLERS

Single Point of Contact

One dedicated project lead from consultation to handover. Accountability stays on our side.

1
DEDICATED PROJECT LEAD

On-Time Delivery

Rigorous scheduling, pre-ordered materials, and real-time progress tracking on every job.

On-Time
SCHEDULE COMMITMENT

After-Sales Service

Warranty support, annual maintenance, and refinishing services for the full life of the surface.
