AYANA

TRADING & CONTRACTING

Sports Flooring Solutions

Engineering Excellence in Every Surface

WHO WE ARE

Company Overview

100+

Projects Completed

Across Qatar

15+

Team Experience

Industry-leading expertise

50+

Certified Installers

Professional installation teams

100%

Nationwide Coverage

Qatar Market Dedication

AYANA Trading & Contracting is a premier provider of comprehensive sports flooring solutions, finishing products, specializing in the supply, installation, and maintenance of worldclass athletic surfaces. From indoor hardwood courts to outdoor artificial turf systems, we deliver engineered excellence that meets the highest international standards including DIN, EN, FIFA, and IAAF certification.

Vision & Mission

Vision

To be the **regional leader** in sports flooring solution & finishing works, recognized for engineering excellence, innovation, and unwavering commitment to athlete safety and performance across the Middle East and beyond.

Mission

To deliver **world-class sports surfaces** that meets international standards through technical expertise, quality materials, and professional installation—creating safe, durable, and high performance environments for athletes at every level.

Core Values

Quality

Uncompromising standards in every project

Innovation

Embracing cutting-edge technologies

Partnership

Building lasting client relationships

Sustainability

Eco-conscious solutions & practices

WHAT WE OFFER

Comprehensive Services

Consultation & Design

Expert guidance on product selection, performance specifications, and custom design solutions tailored to facility requirements.

Supply & Procurement

Direct sourcing of premium materials from certified manufacturers worldwide, ensuring quality and competitive pricing.

Installation & Application

Certified technician teams executing precision installations with adherence to manufacturer specifications and industry standards.

Turnkey Solutions

End-to-end project management from concept to completion, including all trades coordination and final handover.

Maintenance Programs

Scheduled maintenance, deep cleaning, refinishing, and repair services to extend surface lifespan and maintain performance.

Safety Compliance

Testing and certification services ensuring all installations meet DIN, EN, FIFA, IAAF, and local safety regulations.

Safety Wall Panels

Impact-resistant wall padding systems for sports facilities, gyms, and recreational centers with certified protection ratings.

General Fitout

Complete interior construction including ceilings, lighting, HVAC, all type finishes and auxiliary facilities for sports complexes.

Sports Equipment

Professional sports equipment supply and installation including goals, hoops, nets, and facility fixtures.

Maple Hardwood & Polyurethane

Maple Hardwood Systems

DIN 18032 2 Certified

Premium-grade maple hardwood flooring engineered for competitive basketball, volleyball, and multi-purpose sports halls. Features superior shock absorption and consistent ball rebound characteristics.

Shock Absorption ≥53%

Ball Rebound ≥90%

Vertical Deformation 2.3-5.0mm

Applications:

- Basketball
- Volleyball
- Multi-Purpose
- Dance Studios

Polyurethane Sports Floors

Seamless Performance Surface

High-performance seamless polyurethane systems offering exceptional durability, hygiene, and versatility. Ideal for multi-sport facilities requiring low maintenance and long service life.

Shock Absorption 53-58%

Slip Resistance 0.5-0.7

Surface Regularity ±3mm/3m

Applications:

- School Gyms
- Community Centers
- Fitness Studios
- Aerobics

Certifications: DIN 18032-2 | EN 14904 | ASTM F2772

5+ Year Warranty Available

Vinyl & Rubber Flooring

Vinyl Sports Flooring

Multi-Purpose Performance

High-quality PVC vinyl systems offering exceptional durability, easy maintenance, and versatile applications. Perfect for multipurpose halls requiring quick surface transitions between activities.

Wear Layer Thickness **1.2-2.0mm**

Total Thickness **3.5-8.0mm**

Fire Rating **Class Bfls1**

Key Features:

- ✓ Seamless welded joints for hygiene
- ✓ Excellent slip resistance (R₉R11)
- ✓ Sound absorption up to 18dB
- ✓ Custom color and pattern options

Vinyl Applications: Multi-Purpose Halls • Indoor Tennis • Badminton • Table Tennis

Rubber Flooring Systems

High-Impact Durability

Heavy-duty rubber flooring engineered for weight rooms, functional training areas, and high traffic fitness zones. Delivers superior impact absorption and equipment protection.

Thickness Range **6-15mm**

Shock Absorption **≥40%**

Density **850-1100 kg/m³**

Key Features:

- ✓ Impact sound reduction ($\Delta L_w \geq 20$ dB)
- ✓ Anti-fatigue properties for athletes
- ✓ Recycled rubber content options
- ✓ Resistant to heavy equipment

Rubber Applications: Weight Rooms • CrossFit • Functional Training • Free Weight Areas

Acrylic & Modular Tiles

Acrylic Sports Surfaces

All-Weather Performance

Premium acrylic coating systems designed for tennis, basketball, and multi-sport outdoor courts. Engineered to withstand extreme weather conditions while maintaining consistent playing characteristics.

System Layers 4-8 coats

Total Thickness 3-8mm

UV Resistance Excellent

Surface Types:

Cushioned
Shock absorbing

Textured
Enhanced grip

Color
Custom options

ITF
Certified

Modular Tile Systems

Interlocking PP Tiles

Versatile interlocking polypropylene tile systems offering rapid installation, excellent drainage, and long-term durability. Ideal for basketball, tennis, futsal, and multi-sport applications.

Tile Dimensions 250-305mm

Thickness 12-20mm

Load Capacity ≥10,000 kg/m²

Key Advantages:

- ✓ Installation time reduced by 45%
- ✓ Self-draining, all-weather use
- ✓ Individual tile replacement
- ✓ 10+ year service life

ITF Court Pace Rated

UV Stabilized

100% Recyclable

5-10 Year Warranty

Artificial Turf & EPDM Tracks

Artificial Turf Systems

FIFA Quality Pro Certified

Third-generation (3G) artificial turf systems engineered for professional football pitches. FIFA Quality Pro certified surfaces delivering natural grass play characteristics with enhanced durability and all weather performance.

Pile Height 40-65mm

Ball Rebound 0.60-0.85m

Shock Absorption 60-70%

FIFA Quality Pro Requirements:

- ✓ 20+ performance tests passed
- ✓ Lisport XL $\geq 6,000$ cycles
- ✓ Annual re-certification
- ✓ Surface deformation ≤ 15 mm

FIFA Certification Quality (3yr) | Quality Pro (1yr)

EPDM Rubber Tracks

IAAF Compliant

Professional athletic track surfaces meeting IAAF standards for competitions and training. Spray-coat and sandwich systems providing optimal shock absorption, energy return, and weather resistance.

System Thickness 13-18mm

Shock Absorption 30-50%

Vertical Deformation 0.6-2.5mm

System Features:

- ✓ Permeable and non-permeable options
- ✓ Spike-resistant surface layer
- ✓ Custom color configurations
- ✓ All-weather performance

IAAF Standards Shock absorption | Vertical deflection | Tensile strength

Safety Wall Panels

Impact-Resistant Wall Padding

EN 14904 Certified Protection

Professional grade protective wall padding systems engineered to prevent injuries from player wall collisions in sports facilities. Our wall panels combine high impact absorption with durable, easy-to-clean surfaces that maintain appearance and performance over years of intensive use.

Core Materials

- High-density polyurethane foam
- Multi-layer shock absorption
- Fire-retardant substrates

Surface Options

- PVC-coated polyester fabric
- Reinforced vinyl membrane
- Custom color matching

Installation Methods:

- Direct Wall Mount
- Z-Clip System
- Rail & Bracket
- Floor-to-Ceiling
- Modular Panels

Technical Specifications

Panel Thickness	25-100mm
Standard Heights	1.0-2.4m
Impact Absorption	≥60%
Fire Rating	Class B1

Applications

- ✓ Multi-purpose sports halls
- ✓ Gymnasiums & fitness centers
- ✓ Squash & racquetball courts
- ✓ Indoor playgrounds
- ✓ Martial arts dojos
- ✓ Recreational centers

EN 14904 Compliant

Impact Tested

Custom Graphics Available

5+ Year Warranty

General Fitout

Interior Construction & Finishing

Turnkey Project Delivery

Comprehensive interior construction and finishing services for sports complexes, from initial design to final handover. Our integrated approach ensures seamless coordination between all trades, delivering facilities that are functional, aesthetically pleasing, and built to last.

Ceiling Systems

- Acoustic ceiling panels
- Suspended grid systems
- LED lighting integration
- HVAC coordination

Lighting Solutions

- Sports-specific lighting
- LED highbay fixtures
- Emergency lighting
- Smart control systems

Auxiliary Facilities

- Locker rooms & showers
- Reception areas
- Spectator seating
- Storage solutions

Finishing Works

- Wall cladding & painting
- Flooring transitions
- Signage & wayfinding
- Branding integration

Project Management Approach:

- Single Point of Contact
- Integrated Scheduling
- Quality Control
- Budget Management
- Timeline Adherence

Our Process

- 1 Design Coordination**
MEP & architectural alignment
- 2 Material Procurement**
Quality sourcing & logistics
- 3 Execution**
Skilled trades & supervision
- 4 Quality Assurance**
Inspections & testing
- 5 Handover**
Documentation & training

★ Key Benefits

- ✓ Single-contractor accountability
- ✓ Reduced coordination conflicts
- ✓ Faster project completion
- ✓ Cost-effective solutions
- ✓ Consistent quality standards

Sports Equipment

Professional Equipment Supply

Installation & Maintenance Support

Complete sports equipment solutions from leading international manufacturers. We supply, install, and maintain professional-grade equipment for all types of sports facilities, ensuring optimal performance, safety, and longevity through expert installation and ongoing support services.

Court Equipment

- Basketball goals & backboards
- Volleyball posts & nets
- Badminton posts & nets
- Tennis posts & nets
- Futsal goals

Track & Field

- Starting blocks
- Hurdles
- Pole vault equipment
- High jump stands
- Throwing implements

Fitness Equipment

- Strength training stations
- Cardio machines
- Free weight systems
- Functional training rigs
- Gym accessories

Facility Fixtures

- Scoreboards & timers
- Spectator seating
- Court dividers
- Storage systems
- Protective netting

Quality Standards:

FIBA Approved FIVB Certified ITF Compliant IAAF Standards EN 957 Safety

Services

Custom Solutions

Installation Process

Six-Step Workflow for Guaranteed Excellence

01 Site Evaluation

Comprehensive assessment of existing conditions including moisture testing, level surveys, and structural analysis to determine optimal installation approach.

Measurements Testing

02 Subfloor Preparation

Surface leveling, crack repair, moisture barrier installation, and conditioning to create the ideal foundation for flooring system adhesion and performance.

Leveling Repair

03 Material Selection

Specification matching based on facility requirements, performance standards, and budget considerations with certified products from leading manufacturers.

Certified Optimized

04 Professional Installation

Deployment of certified technician teams executing precision installations following manufacturer specifications and industry best practices.

Certified Teams Precision

05 Surface Finishing

Application of protective coatings, game line marking, and final treatments to ensure optimal performance, appearance, and longevity.

Coatings Line Marking

06 Final Inspection

Comprehensive quality assurance testing, certification verification, and client handover with documentation and maintenance guidelines.

Testing Certification

Timely Execution Quality Guaranteed Full Documentation

Standardized Process

Maintenance & Support

Comprehensive Care for LongTerm Performance

Daily Cleaning

Routine maintenance protocols including dust removal, surface cleaning, and debris management to preserve appearance and hygiene.

- ✓ Dry mopping and dusting
- ✓ Spot cleaning protocols
- ✓ Equipment recommendations

Deep Cleaning

Periodic intensive cleaning and restoration services to remove embedded dirt, restore surface properties, and extend service life.

- ✓ Machine scrubbing
- ✓ Chemical treatment
- ✓ Surface restoration

Warranty & Support

Product Warranty

5- 15 years depending on system type and application

Installation Warranty

2-5 years covering workmanship and installation quality

Technical Support

24/7 hotline and on-site assistance available

Repair & Refinishing

Targeted repair services for damaged areas, seam repairs, and complete refinishing to restore original performance characteristics.

- ✓ Patch repairs
- ✓ Seam welding
- ✓ Topcoat reapplication

Annual Programs

Scheduled maintenance programs with regular inspections, preventive care, and performance testing to maximize surface lifespan.

- ✓ Quarterly inspections
- ✓ Performance testing
- ✓ Maintenance reports

Service Benefits

- ✓ Extended surface lifespan
- ✓ Consistent performance
- ✓ Reduced long term costs
- ✓ Warranty compliance
- ✓ Expert technician teams

COMPETITIVE ADVANTAGES

Why Choose AYANA

Client Satisfaction

98%

Proven track record of exceeding client expectations through quality workmanship, transparent communication, and dedicated project management.

On-Time Delivery

95%

Efficient project scheduling and resource management ensuring timely completion without compromising quality standards.

Warranty Coverage

15+ Yrs

Industry-leading warranty terms reflecting our confidence in materials, installation quality, and longterm performance.

Certified Teams

50+ professionally trained and certified installers with expertise across all flooring systems and international standards compliance.

DIN Certified FIFA Trained

Standards Compliance

All installations meet or exceed international standards including DIN, EN, FIFA, IAAF, and ASTM certifications with full documentation.

DIN 18032-2 EN 14904

End-to-End Management

Comprehensive project management from initial consultation through final handover, including design, procurement, installation, and maintenance.
